DISCUSSION

Entertainment Drive

A laughing Geoffrey Holder welcomes you as you begin to explore the multilevel menus of this rich source for show business news and fun. eDrive is a crossover hit from CompuServe, where it has a million members, and there's a definite emphasis here on chat and user interactivity. eDrive isn't a replacement for Mr. Showbiz or E! Online, but it's certainly one of the show-busiest of the showbiz sites.
